# Oklahoma State Regents for Higher Education ACADEMIC SCHOLARS 

Academic Scholars Program
(ASP)
2006-2007
Year-End Report

## Highlights:

- In fall 2006, 221 freshmen National Merit Scholars received awards through the program and attended Oklahoma universities. This is a decrease of 29 from fall 2005 and compares to only 45 freshman National Merit Scholars that attended Oklahoma institutions in fall 1987 before the program was implemented.
- In fall 2006, 2,099 students at Oklahoma public and private colleges and universities were enrolled in the Academic Scholars Program, a decrease of 33 from fall 2005. The 2006 freshman class totaled 571 students- 330 "automatic qualifiers" and 241 Institutional Nominees. This is a decrease of 49 or $7.9 \%$ from the fall 2005 freshman class.
- Since the start of the program in 1991, an average of $17 \%$ of program participants lose the scholarship after one year in the program. For the most current year, the rate was $16 \%$. On average, about $72 \%$ of participants retain the scholarship through their fourth year of eligibility; the most current class was $77 \%$.
- For the 1,392 participants entering into the program between 1999-2001, $75 \%$ (1041) received at least a baccalaureate degree from an Oklahoma institution.
- About $73 \%$ of all the program's graduates remain in Oklahoma one year after graduation. This compares to about $85 \%$ of all Oklahoma bachelor degree recipients based on the latest statewide data. The retention rate for Oklahoma residents in the program (79\%) is significantly higher than for nonresidents (55\%). After five years, about 43\% of the Academic Scholar graduates are still in Oklahoma, compared to $66 \%$ of all bachelor degree recipients.
- About $85 \%$ of the program participants attend three universities—University of Oklahoma (50\%), Oklahoma State University (22\%) and the University of Tulsa (13\%). The remaining participants attend public regional universities (8\%), public two-year colleges (3\%) and other private universities (3\%). The three largest participating institutions also account for almost $91 \%$ of the total program expenditures.
- Few participants qualified for other Oklahoma financial aid programs. In 2006-07, about 4\% received an award from the Oklahoma Tuition Aid Grant (OTAG) program; and about less than $10 \%$ were eligible for Oklahoma's Promise. Less than 30\% of participants reported parental income on the 2006-07 FAFSA, and of those reporting, $69 \%$ reported a family income of $\$ 50,000$ or higher.
- Participation rates for Black and Hispanic students have steadily declined over the past five years; Black students as a percentage of the total participation in the program decreased from $2.3 \%$ to $0.9 \%$ while Hispanic students dropped from $4.7 \%$ to $1.5 \%$.

## VII. Qualification Profile by Institution:

To automatically qualify for the Academic Scholars Program, Oklahoma residents and nonresidents must have received the designation of National Merit Scholar, National Merit Finalist, or Presidential Scholar. Oklahoma residents may also qualify by achieving a score in the top one-half percentile on the ACT or SAT.

The 1999 Legislature created another avenue by which students can qualify for ASP awards, Institutional Nominees. Applicants may qualify for consideration by public colleges and universities in one of two ways:

1. by having an ACT or SAT score that falls within the 95.0 to 99.49 percentile levels; or
2. by demonstrating exceptional academic achievement as evidenced by a number of factors including grade point average, class rank, national awards, scholastic achievement, and academic honors.
